## JOHN READING FOR CIRCUIT CLERK

States That He Will Make the Race For  
This Office—N. I. Toombs Will  
Not be a Candidate for  
Re-election

John Reading who has for the past fourteen years been connected with the office of circuit court clerk, as deputy, in conversation with The "Bee" said yesterday that he would be a candidate for this office and would make his formal announcement in this paper at the proper time. It is understood that our old friend Nick Toombs will not be a candidate for this office but has another bee buzzing in his bonnet that points toward the sheriff's office.

John Reading will make a very strong candidate for circuit clerk as during his long service as deputy he has by kind and courteous treatment of those having business with him, made hundreds of friends and his well known efficiency and ability along this line of work make him eminently fitted for the place. He is justly regarded as one of the best circuit clerks in the state and his many friends in the county will doubtless rally to his support.

### Killing Birds

The pernicious habit of killing birds should be stopped wherever engaged in, not only because it is a violation of our laws, but because birds eat millions of insects and thereby protect crops of all kinds. Scientists tell us that if all birds were destroyed, insects would eat all vegetation and man would die all starvation in a short while. It is a violation of law to kill any kind of birds except English sparrows and what is known as crow-black birds. It is a violation of law to catch a bird, or have one in possession after it is caught.

Parents should teach their children to let birds and their nests alone. Were it not for the birds we could not raise gardens or crops of any kind, and the sooner our people learn the true value of our birds, the more anxious will they become to protect them and the better it will be for everyone. The person who kills or capture a bird, or has it in possession after it is captured, is liable to a fine of not less than five dollars and cost, or about fifteen dollars, and any one who sees another kill or capture a bird, or keep one in captivity, should tell it to the officers and help punish the guilty person. The existence of the human race depends upon the existence of the birds, and people who kill birds are law breakers and should be punished.

### Feeling Good

A neighbor dropped into our office this week with a grin on both sides of his face and imparted the very evident and superfluous information that he was "feeling good."

Said he had been reading the ads in our paper more carefully than usual, and found that he could actually save money by doing his trading at home instead of continuing his contributions to the mail order millionaires. Of course he was feeling good. How's YOUR feel?

### Dived 100 Feet

Earl Ford crawled to the top of the L. & N. bridge at Henderson and made a successful dive into the Ohio river, a distance of more than 100 feet. A boat was in waiting and Ford was picked up little the worse for his dive.

## Go to Church Message Twentieth Century Method of Awakening Religious Fervor

### GO TO CHURCH!

In the brief time that the GO TO CHURCH movement has been so widely heralded throughout the country there has been a big increase in the attendance at churches. Clergymen declare that RELIGION NEVER WAS DEAD. All that it needed was an awakening. AND IT HAS AWAKENED.

But there are thousands today who have not yet heeded the GO TO CHURCH call. It is to these that this appeal is directed. Do you believe in a Supreme Being? If you do, is he not worthy of worship? No matter how derelict you have been in the past, the church awaits you. If you haven't been to church in a decade all the more reason that you GO TO CHURCH now.

AS A MATTER OF FACT THERE NEVER WAS A TIME WHEN PEOPLE HAD FORGOTTEN CHURCH. IN LATTER DAYS THERE HAS BEEN A WAVE OF MATERIALISM AND UNGODLINESS, BUT RELIGION ONLY REQUIRED AN AWAKENING CRY. THE GO TO CHURCH MOVEMENT IS AS A PRAIRIE FIRE. IN EVERY VILLAGE, HAMLET, TOWN AND CITY THE CRY HAS BEEN TAKEN UP. THIS GO TO CHURCH MESSAGE IS A TWENTIETH CENTURY METHOD OF AWAKENING RELIGIOUS FERVOR. IT IS SUCCEEDING.

Do your part in this splendid movement. When you read this ask your neighbor if he has read it. KEEP BOOSTING. Some people say that GOING TO CHURCH IS GETTING TO BE A FAD NOWADAYS. If that is so there are some fads worth while, after all. When one considers that all that the churches ask is a brief time every Sunday morning it is hard to conceive how any one can refrain from performing this plain duty.

GO TO CHURCH next Sunday!

GO TO CHURCH the following Sunday!

GO TO CHURCH every Sunday!

## White Plains Notes

Mr. and Mrs. Neal S. Ivers, Mr. and Mrs. W. O. Durham, Misses Edna Farmer, Sanna Bailey, Lillian and Helen Harrison. Messers Rebekah Dukes and Ross Harrison motored to Madisonville Friday night and attended the Chautauqua there.

### BIG PROFIT SHARING SALE

Will Begin Saturday, July 11th—Don't  
Fail to Attend

The big profit sharing sale at the Barnes, Cowand & Co. store will begin Saturday, July 11, and you will find that now as in years past there will be a feast of bargains in dry goods, clothing and millinery. We call your careful attention to the page advertisement in this issue of the paper and assure you it will be to your advantage to read it and visit this store.

### Coming of The Rubes

Summer is at hand, and like was the annual coming of the city rubes.

Treat them gently, handled them with care, for though they may not be marked "fragile," they are as babes in the woods.

Give freely of your store of knowledge, that they may return to the abode of innocents with wisdom to spare, for as we give in this life so shall we receive in the one to come.

Instruct them carefully in the fine arts of the milking of the cow, the feeding of the fowls and the pitching of the hay, and smile not when they ask to remove the "thick yellow scum" from their milk.

Assure them that when the cock crows at break of day it is not an alarm of fire, nor yet an earthquake, and neither is it a signal for lights out in the bar room.

Awake them at noon for their morning repast, and warn them of the bull, and the snakes, and the business end of the goat, and of all the snares that beset the unwary in the field of adventure.

Grave is your responsibility. Give it heed.

### A Costly Cigarette

A lighted cigarette thrown among the stubble in a wheat field near Fulton, caused a fire which destroyed forty acres of fine wheat, and a fine Thresher escaped by the hardest of work. And yet many fellows are just as foolish as this fellow proved to be.—Callaway Times.

## CANNED PTOMAINE AND A QUICK NEEDLE

Double Funeral Averted by Rapid Action  
After Two Section Hands Ate  
Poison

Dr. Ross had a couple of peculiar cases yesterday afternoon, and it looked dark indeed for both for a time. Two negro section hands were brought in on a handcar from the neighborhood of Victoria mine, not long after noon, cold and unconscious, and hurried to the St. Bernard Hospital. The doctor used the needle with a powerful drug to unveil the mystery of the stomach contents and lo, there was an abundance of lye homony—in both cases. With stomachs relieved, consciousness returned and strength was quickly recovered. They said they ate dinner together and both consumed lye homony—whole—out of the same can. The cases are labeled "ptomaine." The label would probably have been written on a wooden headboard, with no cause assigned, but for a quick handcar and a handy doctor with a needle.

### Our Affairs With The Japs

The final publication of the correspondence between the United States and Japan relating to California's anti-alien policy, has developed even a milder presentation than most people at the National Capital expected: Japan very successfully made the Roosevelt, Taft and Wilson administration uncomfortable, and Capitol Hill breathed long deep draughts of relief when Colonel Goethals let it be known that the Panama Canal was ready to put warships through the locks in case an emergency arose. Since then the administration has not become so excited over the performance of Japan, although it was declared by Senator William Alden Smith, of Michigan, that the visit of a Japanese naval officer to Huerta precipitated the American attack upon Vera Cruz.

### Big Loom-End and Clearance Sale

H. D. Cowand is putting on a big loom-end and clearance sale at his new store and is offering the people some of the best bargains they have ever had the opportunity of participating in. All of his goods are new and up-to-date and you will make no mistake by visiting this store during this sale and making your purchases. We call your attention to the double page advertisement in this issue of the paper and feel sure it will pay you to read it carefully.

### Drys to Make Fight

Hopkinsville, Ky., July 4.—Petitions are being circulated in all sections of the county asking that an election on prohibition be called for Monday, September 21. The drys are jubilant over the prospect and already claim they will win by a big majority. If prohibition is voted it will put out of business twenty-two liquor houses here.

Until the Plumber Arrives.  
While waiting for the arrival of a plumber, when the water pipes have sprung a leak, the housewife may do a little repairing herself. The water should be turned off and a solder made by mixing some whiting with common yellow soap and just enough water to form a thick paste. Apply this mixture to the leak and in a little while the water may be turned on very slowly. This solder may last a day or longer.

### Daily Thought

Never be unemployed, never be idly employed, never while away time.—John Wesley.

## MEDIATORS ADJOURNED

Huerta Delegates to Await  
Word From Constitution-  
alists in New York

### AN INDEFINITE RECESS

Niagara Falls, Ont., July 2.—With the departure last night of Ambassador DaGama, of Brazil, and Minister Naon, of Argentina, and the American delegation, the Pan-American conference, convened to find a solution of the Mexican problem, formally ended its sessions here.

Minister Suarez, of Chile, and the Huerta delegates will leave tomorrow. When and where the next meeting will be held depends on Gen. Carranza who is consulting with his subordinate constitutionalist chiefs about sending delegates to a conference with the Huerta delegates to select a new provisional president. The Huerta delegates expect to remain in New York until definite word is heard from the constitutionalists.

In the meantime mediation has been declared in indefinite recess.

### Pitched Two Perfect Ball Games

In the July American Magazine "Eddie" Collins, of the Philadelphia Athletics, writes an article entitled "Pitchers I Have Faced." Collins is one of the greatest batters in the business and he is the player whom "Johnny" McGraw, of the New York Giants, calls the greatest baseball player in the world. He tells many interesting stories of remarkable pitchers one of whom is the late "Addie" Joss, pitching star for the Cleveland team. Collins thinks that Joss was one of the best pitchers he ever had to face. He says that Joss's best achievement in the pitchers box came in Cleveland against the Chicago Americans when pitched against "Eddie" Walsh he pitched a nine-inning game in which not a man reached first base. Joss shares this honor alone with "Cy" Young, that of ever having pitched a perfect game.

The Test of Love.  
Of course sincerity and purity of affection has not one but many tests. If you love you must know where the other doubts and persist where the world deprecates. Love is because it is. For this reason one stands with it against the world and does not wield the weapons of the world against it. Surely its assurance in the face of the storm is one of its sweetest tests.

## MRS. WINN'S ADVICE TO WOMEN

Take Lydia E. Pinkham's Vegetable Compound and be Restored to Health.

Kansas City, Mo.—"The doctors told me I would never be a mother. Every month the pains were so bad that I could not bear my weight on one foot. I began taking Lydia E. Pinkham's Vegetable Compound and had not finished the first bottle when I felt greatly relieved and I took it until it made me sound and well, and I now have two fine baby girls. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly for what it has done for me. I always speak a word in favor of your medicine to other women who suffer when I have an opportunity."—Mrs. H. T. WINN, 1225 Fremont Ave., Kansas City, Mo.

Read What Another Woman says:  
Cumming, Ga.—"I tell some suffering woman every day of Lydia E. Pinkham's Vegetable Compound and what it has done for me. I could not eat or sleep, had a bad stomach and was in misery all the time. I could not do my housework or walk any distance without suffering great pain. I tried doctors' medicines and different patent medicines but failed to get relief. My husband brought home your Vegetable Compound and in two weeks I could eat anything, could sleep like a healthy baby, and walk a long distance without feeling tired. I can highly recommend your Vegetable Compound to women who suffer as I did, and you are at liberty to use this letter."—Mrs. CHARLIE BAGLEY, R. 3, Cumming, Ga.

Bit of First Aid.  
In cases of shock and collapse it may be advisable in certain cases where collapse is imminent to administer a little stimulant in the shape of brandy and water, but it has to be noted that the use of alcohol under such circumstances must be carefully carried out, inasmuch as in certain cases (as in apoplexy, for example) the administration of alcohol is calculated to prove highly injurious.

Explanation.  
"A babe," says a writer, "is a mother's anchor." This, then, probably explains why the maternal parent of Moses consigned him to the water.

Today.  
Today is your day and mine, the  
only day we have, the day in which  
we play our part. What our part may  
signify in the great whole, we may  
not understand; but this we know:  
It is a part of action, not of whining;  
of love, not of cynicism. It is for us  
to express love in terms of human  
helpfulness.—David Starr Jordan.

**Avoid Self-Consciousness.**  
To think about oneself all the while  
is to turn energy in on oneself con-  
tinually that might much better go out  
in unselfish action. The self-con-  
scious person needs to pour out this  
force of attention and thought, instead  
of concentrating it on self and wasting  
it in awkward embarrassment and  
hurt pride.—Great Thoughts.

**Things Fatal to Healthy Life.**  
If we cease to struggle or think, and  
are content to live a purely animal  
life, the activity of our brain powers  
quickly ceases and we are mentally  
dead. Struggle, action, aspiration is  
dying, but it means living. Introduce  
the poison of vice, and there is a  
cessation of mental life as fatal as  
that caused to the body by arsenic

germicidal of all antiseptics is

## Paxtine

A soluble Antiseptic Powder to  
be dissolved in water as needed.

As a medicinal antiseptic for douches  
in treating catarrh, inflammation or

For ten years the Lydia E. Pinkham

in their private correspondence with  
women, which proves its superiority.  
Women who have been cured say  
it is "worth its weight in gold." At

**Find Fossilized Remains.**  
The fossilized remains of the head  
of an elephant were recently found by  
fishermen in a cliff at Bacton, on the  
Norfolk coast. The lower jaw was  
missing, but remains of what are sup-  
posed to have been tusks were found  
some time ago.—London Mail.

## The Telephone and Good Roads.

The telephone goes hand in hand with good roads.

The telephone overcomes many of the obsta-  
cles of bad roads and makes it possible for the  
farmer and other rural residents to transact busi-  
ness in the city and with neighbors when the  
roads are impassable.

Progressive farmers are insisting upon good  
roads and telephones. These two agencies of  
modern civilization are doing more than all others  
toward eliminating the isolation of country life.  
You can have a telephone in your home at very  
small cost. Send a postal for our free booklet  
giving complete information.

John W. Davenport, Earlington,  
Ky., says: "I suffered from kidney  
trouble more than tongue can tell.  
My back was so sore and lame that  
I could not work for days at a time  
and the kidney secretions were  
heavy. A constant pain in my  
head almost blinded me. I became  
dizzy, dark spots floated before my  
eyes and I would reel like a drunk-  
en man. Nothing did me any good  
until a fellow-workman told me he  
had used Doan's Kidney Pills with  
success. I got a supply at the St.  
Bernard Mining Co., Incorporated,  
and it was only a few weeks before  
they removed the trouble."

## ROAD BUILDING

RELOCATE MANY OLD ROADS

Department of Agriculture Advises Cutting Out of Grades on Highways to Save Horses.

(Prepared by the United States Department of Agriculture.)

The average life of horses and automobiles may be increased and the cost of hauling reduced, according to the office of roads of the department of agriculture, by relocating many old roads and the more scientific laying out of new ones. The natural tendency in road building is to build a straight road, whether it goes over steep grades or hills, or not, and pulling over these grades naturally adds to the wear and tear on horses and vehicles.

The doctrine of the office of roads is that the longest way around may often be the shortest and most economical way home, and that frequently by building a highway around a hill or grade, but little appreciable distance is added and this is more than offset by the reduced strain of hauling.

The chief drawback from the farm owner's point of view is that the laying out of roads on this principle of avoiding grades necessitates, in some cases, running the road through good farm land or orchards or pastures, instead of going around the farm line and building the road through old worn-out fields and over rocky knolls. This, of course, must raise a question in the mind of the individual land owner as to whether the cutting up of his property by a road yields him individual advantages and so benefits his community as to offset the use of such land for a road, or to overcome the inconvenience of having his land divided. In this connection the office of roads points out that the running of a road and the resulting traffic through a good farm, where there are good sheep, cattle, horses, grain, fruit or vegetables, has a certain advertising value and in many instances makes the land more valuable. In other cases, the importance of such a level road to the community is so great that it might well repay those using the road to give the farmer the equivalent in land equally good in place of what

A Good Road in Wisconsin.

he has sacrificed to the common weal fare.

At any rate, the office of roads is now taking special pains to make clear the economic advantage of avoiding steep grades in other roads, even at some sacrifice of better land. Investigation shows that the laying of such roads over hills has resulted more from attention to the preservation of farm lines than from scientific attention to the problem of road building.

According to the testimony of farmers consulted, where a horse might be able to pull 4,000 pounds on a level road, it would have difficulty in pulling 3,000 pounds up a steep hill. The size of the load, therefore, tends to be measured by the grade of the largest hill on the road to market. In a number of cases actual experiment shows that the re-locating of roads around hills has been accomplished, either with no addition in road length in some instances, and with the adding of only a few feet to the highway in others. The office knows of no case where a properly re-located road which has cut out grades has led to any question as to its material reduction of hauling costs.

### THRESHED OATS FOR FOWLS

Grain Will Sometimes Produce Crop-Bound If Given Too Freely at First—Alternate With Mash.

Threshed oats is fine for fowls, if fed intelligently. They will sometimes produce crop-bound if fed too freely when first fed. Almost any dry, bulky rations will produce crop-bound when fed in large quantity. However, oats is a very valuable ration for fowls, but we would prefer to feed it alternately with a mash food made of pure wheat bran, hominy feed and shorts.

The standard weight for oats, says the Indiana Farmer, is 32 pounds to the bushel, but it must be remembered that there is no grain so variable in weight per bushel as oats. Ordinarily oats when it approaches the standard weight per bushel makes fine poultry feed. You will find that the fowls will refuse to eat fiber portion of oats—eating only the best of the grain.
